German Military Organization.

A meeting was held in Frank Anzinger's hall at 3 o'clock yesterday afternoon of exmembers of the regular army of Germany. for the purpose of organizing an association. Twenty veterans, residents of this city, were present. If Kinderman was chairman and Jacob Schoenthal, of the Springfield Journal, secretary. The name of the association selected is the Dentsche Krieger Verien, and another meeting will be held in the same place next Sunday at 3 p. m., to complete the organization by election of officers. It is said there are about sury ex-soldiers of the German army here, which will make a strong company. It is not proposed to procure uniforms and arms or do any great amount of drilling and parading, the object of the organination being rather of a social and patriotic nature, combining perhaps the muttal benefit teature, as seen in meeral German brotherboods now in existence here.

OHIO SONS OF VETERANS.

essions of State Eccampment in G. A. R. Hall, Tals City, Tuesday and Wednesday
-Programme of Business.

In the rush of other gatherings, State and National, held or to be held in Springfield this season the annual meeting of the State Encampment of Ohio, Sons of Veterans, has been comparatively forgotten. The members of this new organization are, as the designation of the Order indicates, sons of veterans who served honorably in the armies or navy of the Union during the southern rebellion. In the nature of things these old soldiers willin a few years, have passed away, as a body, and their sons, organized and banded for that purpose, will take up the work of the G. A. costs. R., seeing to it that the memory of their dead fathers and fathers' comrades is publicly honored on appropriate occasions, such as Memohis disch rge ordered. If that is the case that rial Day. Another object of the S. of V. is to inculcate in the minds of young men sentiments of patriotism and devotion to that country preserved intact at such an expense of blood and money.

The officers of the State Encampment will need at the Lagonda House at 9 a.m. tomorrow, to organize and complete the programme, and at ten the Encampment itself will be called to order in G. A. R. ha'l, holding sessions morning and afternoon Tuesday and Wednesday. There are forty Camps in the State, each of which will send one or more epresentatives, and applications are in for charters for nine new Camps, which will be acted upon at this session. Among other business to come up is the arrangement of matters between the branches arrangement of matters between the branches old, standing there on its rocky perch of the order, making it more uniform and unmindful of the deluges of Deucalion on the second day. The April meeting of the Clark county Pemona Grange was held in the Beech Grove Grange hall, west of Dialton, on April 28, 1885. The morning session was opened in the fith degree by the Wortby Overseer, J. R. Athy, and was devoted to general business and an animated discussion as to "How We Can Improve the Condition of the Order." Dinner served in Grange style at 12:30.

After dinner a half hour was plessantly spent in singing Grange songs. The afternoon session was opened by Bro-J. R. Athy with an essay entitled "Benefits of the Grange." Remarks were offered by sev-eral members. The order is not only beneficial to the members but to farmers generally. Sister Jones (a charter member of Vermont Grange No. 90) made some encouraging re-marks. She is an enthusiastic worker in the cause, and considers the Grange next the church in importance as a means of advancing us morally and intellectually.

A Fortunate Escape. The residence No. 145 South Shaffer street, owned and occupied by Ed. C. Fales, the house decorator with Pierce & Co., came within an ace of burning last night. A hot fire was kept burning in the grate in the sittingroom, and it seems the heat set fire to the floor timbers in front. On arising this moraing the tamily found a hole three feet in dimeter burned through the flor, the cinders and ashes having dropped through into the cellar and the fire going out of itself a ter reaching a point beyond reach of the heat from the grate. At bedtime last night everything, so far as noticed, was in safe condition.

The Highest Trees Known.

Some of the encalyptus trees grow to a height of 500 feet, and would cast a shadow on the summit of the pyramids or the dome of St. Peter's. They were first discovered and classified by M. Laballardieu, a French botanist, just before the beginning of the present century, and have since grown into a renown as wide as that of the giant cedars of California, some of which stowhere they now stand before the He-brew Bible was recorded • the earliest choric hymns of the Hindoos rose along the borders of the five rivers. One of the borders of the five rivers. these mighty trees, now hurled down and stretched along the rock, presented, when it stood erect, a height of more than 490 feet, and, by counting the annular rings upon a section of one of its coevals, it was ascertained that it was more than four thousand years solid. Arab Women as Fighters.

From the earliest period of their history, the women of the desert-tribes were as celebrated for their skill with lance or bow, as for that bronze beauty which the composers of the quasidah or the moallakat were never weary of describing. Before Islam it was the boast of many Arabian tribes, as it was afterward of certain Tartar hordes, that their women could fight as well as the men; the Himarylties were among the most famous of these. All through those ancient Arabian poems, to which Mahomet is said to have referred as final authority for the meaning of certain words or phrases in the Koran, one finds legends of Arab girls celebrated for their equestrianism, their dexterity with the scimetar, and even for the number of men they have overcome in single combat. Islam, by subordinat-ing the woman to the man, and destroying the idea of male and female equalty, did much to extinguish the warriorspirit of the fair sex throughout the greater part of the Orient; but in the deserts of Arabia and Not hern Africa. something of those uncient ideas still prevail. - N.
